26 – 30 July 2017 in Rösrath near Cologne (Germany)

7th EFPP European Summer School of Psychosynthesis

The Revolution of the Peaceful

Come and be a co-creator of a whole and peaceful world

The picture is not chosen by chance. St. Francis of Assisi is painted in a very modern way here by Johannes Wickert. The painting shows a man who influenced the world and still does after 800 years. A real co-creator of peace. St. Francis's will to serve, to follow a call, to live a humble life and remain true to his ideals is what made him great.

We are not aiming to become saints, but rather to listen to our heart's desire. Following our soul's call or inherited potential will change the world. We can make a difference instead of feeling dominated and pushed around by outside forces.

Come into the woods near Cologne where Charlemagne already had his hunting grounds (Königsforst). An inviting venue, with good food and lovely surroundings await you.

International trainers will guide you through workshops, lectures and nature experiences to put you into contact with the Earth's wisdom. Sharing and thus multiplying our creative force for peace. The work will be experiential and skill-building.

Call for papers until 31 August 2016

From 1 October 2016, you will find full information on our website
www.circadian.de/2017efppsummerschool

Looking forward to creating together with you!
